

The Banwell

Tilt-in-Space Dual Motor

Waterfall Back

Featuring 2 variations of mechanism

CosiChair

The Banwell

Waterfall Back

The Banwell is a powerful & significant Riser Recliner chair for the heavier or wider customer that provides the upmost reassurance & comfort.

40 stone Banwell with the 25 stone leg lift – option 1

This has been designed with the larger customer in mind, & those who may require a footboard suitable to support extra carrying capacity. Unlike other standard riser recliner chairs available, which can only carry approximately 20% total lifting capacity on the footboard, the CosiChair Banwell carries up to 25 stone on its footboard area. It is a Dual-motor chair controlling the base and back with a further 2 motors powering the leg lift only.

35 stone Banwell with Tilt-in-space – option 2

This Dual motor recliner is for the heavier customer who requires unparalleled comfort & support of the head and back area. As you recline the chair, the seat to back angle doesn't alter allowing for full support throughout the chairs motion, it then allows the back to be separately adjusted for the ultimate comfort and positioning.
